Issue No. 2 | June 2022

The school was visited by the SHOUT-OUT-NOW group on the 15th of June 2022.

The organization "combines global best practices with tech-driven innovations to advance HIV prevention and treatment in South Africa."

Since they were attending the girls and boy during their sessions they were taught about how to prevent themselves from HIV and AIDS and pregnancy. That's where the scholars started to be more hesitant about knowing their status.

Which simply shows that our students were engaging with what was being taught during their sessions. They also received some scarves and caps after completing their HIV testing in the caravan.

AccessEd & Tutor Profiles

Students from African school for excellence will be participating in AccessEd, a global program that is designed to give students an experience of what it feels like to do different types of research careers.

Through this programme they will get to interact and engage with PhD and Postdoc graduate students who will be immersed in the school for a weekly session of 1 to 2 hours depending on which grades the scholars are in.

The program for this is attached below, the program will be accompanied by a graduation ceremony hosted at either WITS University or UJ on the 31st of October. All of our students are participating in the sessions and a subsidized amount of five hundred rand has been levied on parent accounts to facilitate the execution of this program. Upon completion students will have a program output as well as the completion certificate that will be issued on graduation day.

School Bookshop

In order for the students to raise enough money to buy all the props, costumes and equipment for the Drama performances they are going to have, the school is going to have a bookshop. This is not only going to help us raise enough money but also help us learn new things.

This bookshop is not just going to be school based but also community based, and anyone from the community may purchase books. The goal is not just to raise enough money but to also learn new things and have enough experience that can be for future use.

Midterm Break

We are glad to announce that the school will be having a midterm break starting from the 24th of June till the 4th of July. This is not a break for scholars to just sit and relax. Scholars can continue with their assigned work or do some practice at home to keep their brains working and challenge themselves in order to maintain the fitness of the brain.

Scholars are also encouraged to continue with the work experience they did during the term break after Term 1 this year.

Featured articles

Electronic Devices in Class

Kindly note that phones are no longer permitted in classroom and in the independent class.

If a scholar is found using their cellphones it will be confiscated and in order for a scholar to get their phone back they will have to pay a fine.

Failure to do so, the scholar will get their phones at the end of the year.

Shakespeare

Just as they say - time waits for nobody! September is just around the corner, that being said the rehearsals for the Jouburg Theatre Shakespeare Festivals have started. Enough time to practice makes everything perfect. The crew and the cast are putting together a once in a life time performance. Practices are taking place during SLI time on Tuesdays and Thursdays.

In Closing

Things to Note

Term 2 Resources:

Grade 9 - *Macbeth* by Shakespeare.

Grades 8-12 - The Oxford Dictionary.

- Gloves, lab coats, graph papers and lab books.

- Learners are expected to have USB's for ICT Classes
